HELPFUL HINTS: GOLVELLIUS

Introduction:

At the end of the cave, to defeat the giant snake, jump onto the ledge closest to the snake and stab repeatedly at the eyes. Collect the blue bubbles as the snake disintegrates. (Note: Blue bubbles will appear throughout the game as you defeat enemies - collect them as they replenish your life meter.) You will now be in the Valley.

The Valley:

You have access to nine screens in the Valley. In the upper right screen buy a life potion. In the lower left screen there is a Randar. In the left middle screen kill a bee or snake to make the hole appear. Follow the passageway staying at the upper half of the screen. You will encounter a huge blue bat. Once past the blue bat you will meet up with Desba. To defeat Desba, stab repeatedly when he is not throwing snowflakes.

First Crystal:

After defeating Desba, go one screen right and a hole will appear where you can buy the first crystal.

Go directly north one screen and the rock blocking the pathway will disappear. Cross the bridge to the desert.

The Desert:

You can purchase more bibles and life potions. To the left there will be a screen with blue rocks in the pattern of two diamonds - one smaller diamond within a larger diamond. Ignore the larger diamond and go to the bottom point of the inner diamond. Go one rock up and to the right from the bottom point and stab that rock repeatedly and a hole will appear. Enter the hole and continue to the right, at the end you will encounter two giant snakes. Once they are defeated, you will come up against Saipa. To defeat, stab while he is not spinning.

Second Crystal:

Once Saipa is defeated, go to the most northeastern screen (filled with animal skulls) and the hole will open to buy the second crystal.

Go to the very northwestern screen and a bridge will now appear, cross to the graveyard.

The Graveyard:

Explore the graveyard, purchasing more bibles and life potions. Once you can carry \$8,000, return to the desert. Go to the entrance of the desert (way back at the beginning of the desert). Go right one screen and up one screen. On this screen there is a hole where you can buy Aruzasu's Shield.

Return to the Graveyard. Head up and to the right from the entrance. You will travel around the large black crevice that you cannot walk on. On the left side of the crevice there is a bridge over the river. Once you cross the bridge, the first screen you come to has tombstones and crosses. Stab the most northern cross and a hole will open. Follow the passageway to the blue bats. Once past the bats, defeat Taruba. Taruba disappears and thrown fireballs, so be careful. Hit him while avoiding the fireballs.

Third Crystal:

Return to the entrance of the graveyard. One screen left, and once screen up, a hole will open where you buy the third crystal.

From the screen where Taruba is located, follow the river all the way to the left as far as possible. You will come to a screen with one skull, once cross and skull knights. Hit the cross to make a hole appear. In that cave you can buy the Valley Sword for \$12,000. (Note: It may be useful to have the Sword before defeating Taruba.)

Go back to the entrance of the Graveyard. Go west, then south (follow the river), and you will come to a red brick pathway. Follow the red brick path south and a passage will open. Continue down the path to the meadow.

The Meadow:

Buy more life potions and bibles. On the left side of the meadow there is another red brick pathway. Follow the path to the beach.

The Beach:

If you have the ability to carry \$20,000, go to the beach. Head south, following the river to the bridge. Cross the bridge and head northwest. There you will find, as you travel, two lakes with rats roaming around. You will come across a small lake first, and further northwest will be a larger lake. Above the north side of the larger lake is a strip of sand. The screen has part of the lake, one palm tree, and three rocks. Hit the bottom right of the palm tree and a hole will open. There you will be able to buy the aqua boots for \$20,000.

The Swamp:

Return to the meadow and head south to the area filled with dead trees. This is the swamp. Follow the path through the dead trees, southwest. In the most southwest corner will be an island with a patch of bricks in the center in the middle of a small lake. Kill some creatures and a hole will appear. For \$10,000 you can buy the Ring of Invincibility.

Return to the meadow and head north to the very top screen of the meadow. You will be in a screen filled with grey rocks. Break the rocks until a hole appears. There you can buy the Aresta's Pendant.

Head south to the swamp and go one screen down from the entrance way. The screen has half an island with one bush. Hit the bush and enter the hole that appears. Proceed to the right and you will encounter Fosbus. To defeat Fosbus, avoid the balls she is throwing out while repeatedly stabbing. Your best bet is to go after her, don't wait for her to come to you.

Fourth Crystal:

After defeating Fosbus, proceed one screen north and a hole will now appear where you can buy the fourth crystal.

The Ocean:

Cross the ocean to the far left side. You will find an island covered with grey rocks. Start hitting the rocks on the right side of the island, and a hole will appear. Enter, and follow the screen up. You will encounter two Warusos. The floor of their room is divided into six rows of tiles. Go to the row second from the bottom, left side. Stay there and let them come to you and stab repeatedly.

Fifth Crystal:

Head south to the island in the very most bottom southwest corner of the ocean. On the island a hole will appear on the top right portion. There you will buy the fifth crystal.

Above the lake where you bought the aqua boots, a passage will open to the forest.

Crawky's Forest:

In the first screen in the forest, is a hole where you can buy the Remedia's Shield for \$40,000. To get to the hole, go up one screen, left one screen and there will be a little path where you can go down and to the right. Hit the rock and the hole will appear.

Head to the far north edge of the forest. At the very top center of the forest is a screen with two small ponds side by side. The pond on the right has a tiny bridge. Kill some of the creatures to make the hole appear at the top. Enter and buy the Legendary Sword for \$50,000.

Follow the river right, to the Pine Forest.

The Pine Forest:

Two screens to the right of the entrance to the Pine Forest will be a screen with two red rocks (one in the lower left side, the other in the upper right corner). Hit to rock in the upper right to make a hole appear. There you can buy the Mirror for \$25,000.

From where you got the mirror, journey all the way north. In the very most northwestern part of the pine forest is a screen filled with grey rocks, trees and one bush. There are deathlords floating around. Start hitting the grey rocks and deathlords until a hole appears. Buy the ascent boots there for \$70,000.

Return to the graveyard. To the right of the graveyard is the black crevice that you can now walk on with the ascent boots. In the middle of the crevice is an island with rocks and one skull. Hit the skull to make a hole appear. There you can buy Ramurasu's Pendant for \$25,000.

One screen left of the entrance to the pine forest (between Crawky's Forest and the pine forest) is a screen with the river running through it. There is a bridge over the river connecting the top and bottom of the screen. On the bottom half of the screen are two rocks. Hit the right rock until a hole appears, and enter. Proceed to the right and fight Jasba. Keep after him, repeatedly stabbing while avoiding the fire rings.

Sixth Crystal:

Travel all the way to the very northwestern screen of Crawky's Forest and buy the sixth crystal.

Return to the pine forest. In the southern portion of the forest is a large lake with an island in the middle. Go to the bottom half of the island and hit the grey rocks until a hole appears. Enter and proceed to follow the path up. At the end you will encounter Heidi. She is easy to defeat with repeated stabs.

Seventh Crystal:

Travel to the farthest northeastern screen of the pine forest. A hole will now appear where you can buy the last crystal.

In the middle of the Crawky Forest is a barren area. The screen has green trees on the left, one dead tree in the center with two red rocks in front of it and a few grey rocks. Hit the red rock on the right, and enter the hole that appears. Follow the cave through to the right and at the end you will encounter Golvellius.

(Note: To defeat Golvellius, in addition to having all seven crystals, you will need the purple and green meas and all eighteen life potions, as well as the pendants, shield and swords.)

To defeat Golvellius, you must keep running around him so he will follow you. He will not throw lasers while he is moving, so keep him moving and hit him with your sword.

Good Luck !!!
